STRENGTHS

- Proficient in Web Development
- Strong Analytical and Problem-Solving Skills
- Excellent Communication and Collaboration

LANGUAGE

- Hindi
- English

CERTIFICATES

- Full-Stack Development
- SYSTEM DESIGN AND WORKSHOP
- Java Programming for Beginners
- Introduction to the Fundamentals of Databases

SUMMARY

I am student of MCA, and I'm working on my Full Stack Web Development MERN Stack (Mongo, Express, React, Node). And I'm Computer Science student looking forward to work with a professional work driven environment where I can utilize my skills and knowledge and become a part of organization's growth. Now I'm working web Development project.

INTERNSHIP

Web Development at CODSOFT (Oct 2024 – Nov 2024)

- Developed and maintained responsive web applications using HTML, CSS, JavaScript, and React.js.
- Integrated backend services using Node.js and MongoDB to enhance application functionality.
- Collaborated with a team to implement dynamic UI/UX features, improving user engagement.
- Optimized website performance, ensuring faster load times and better user experience.

PROJECTS

Contact Management System

- Developed a web-based application to store and manage contact information securely.
- Enabled CRUD operations for adding, updating, deleting, and searching contacts.
- Integrated Spring Security for user authentication and role-based access control.
- Technologies used: Spring Boot, Thymeleaf, MySQL, CSS, Bootstrap, JavaScript, Tailwind.

Gym E-Commerce Application

- Built a full-stack application to sell gym products and training programs using Spring Boot, Thymeleaf, and Bootstrap.
- Integrated Spring Security for user authentication and profile management.
- Designed dynamic pages for product listings, user reviews, and profile updates.

Job Portal (Node.js & MongoDB)

- Developed a full-stack job portal using Node.js, Express.js, and MongoDB for backend operations.
- Designed and implemented RESTful APIs to handle user authentication, job postings, and applications.
- Integrated JWT authentication and role-based access control for secure user management.
- Built an intuitive frontend using React.js (or any other framework you used).
- Optimized database queries and indexing for faster job search and filtering.
